CP With Shibam

Day-48

B. File Name

```cpp
#include <bits/stdc++.h>

using namespace std;

int main(){

        int n,l=0;

        cin>>n;

   string s;

        cin>>s;

        for(int i=0;i<n;i++){

                if(s.substr(i,3)=="xxx")l++;

        }

        cout<<l;

}
```

A. Free Ice Cream

```cpp
#include<bits/stdc++.h>

using namespace std;

int main()

{

        long long int n,x,d,dk=0; cin>>n>>x;

        while(n--){char c; cin>>c>>d;

                if(c=='+'){x=x+d;}

                else if(c=='-'){if(x>=d){x=x-d;}

                                else{dk++;}}}
```

```
        cout<<x<<" "<<dk;

}
```
