CP With Shibam

Day-38

A. LCM Problem

```cpp
#include<iostream>

using namespace std;

int main()

{

        int t,l,r;

        cin>>t;

        while(t--)

        {

                cin>>l>>r;

                r<2*l ? cout<<"-1 -1\n" : cout<<l<<" "<<2*l<<endl;

        }

}
```

A. Gennady and a Card Game

```cpp
#include<bits/stdc++.h>

using namespace std;

int main(){

        string s,t;

        cin>>s;

        while(cin>>t){

                if (s[0]==t[0]||s[1]==t[1])return cout<<"YES",0;

        }

        cout<<"NO";}
```
